

To Whom It May Concern:

Please receive this letter as confirmation that our fan coil products, which are manufactured at our facility here in Colton, CA, meet the standard requirements for GSA or "Made in America" approval. All products are assembled here, using components either made in the United States, or supplied by other US vendors amounting to approximately 76% of the total amount used in the product. The approximate 24% remaining materials used in production are sourced from outside the US. These products are listed below.

BUY AMERICAN CERTIFICATE

(a) The offeror certifies that each end product, except those listed in paragraph (b) of this provision, is a domestic end product and that the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The offeror shall list as foreign end products those end products manufactured in the United States that do not qualify as domestic end products. The terms "component," "domestic end product," "end product," "foreign end product," and "United States" are defined in the clause of this solicitation entitled "Buy American Act-Supplies."

(b) Foreign End Products:

Line Item No.	Country of Origin	Percentage of Cost
Copper tubes	S. Korea	12%
Motors	Mexico	12%

If you have any other questions or concerns, feel free to contact me directly.

Sincerely,

Ruth Ann Davis
Vice President of Sales, Marketing & Strategic Relationships
