

# HIGH PERFORMANCE HORIZONTAL FAN COILS

600 - 2,200 CFM

## HIGH PERFORMANCE HORIZONTAL BASIC / HH-B

The low profile and flexible design of the Horizontal Basic (HH-B) fan coil is the right choice for multiple applications where high static performance is required. The slim, compact design is well suited for drop ceiling, closet, hallway and other concealed applications. This unit comes with a powder coated epoxy drain pan and a wide range of coil, motor and controls options. These models have no exterior cabinet.

## HIGH PERFORMANCE HORIZONTAL WITH RETURN-AIR PLENUM / HH-R

The Horizontal Rear Return Air Plenum (HH-R) is our basic fan coil for high static application with a galvanized rear return air plenum and filter. Ideal for mounting above ceilings, in closets, hallways and bathroom areas, the plenum conceals the unit's blower motor, which is easily accessible for service by removing the bottom panel. Horizontal Bottom Return also available.

## HIGH PERFORMANCE HORIZONTAL DELUXE / HH-D

The Horizontal Deluxe (HH-D) fan coil is designed for horizontal exposed ceiling mounted applications where high static performance is required. This unit is our basic unit housed in a fully cased cabinet intended for "free-blow" exposed ceiling mounting. Ideal for remodel situations where adding AC ductwork is limited. Deluxe cabinets are constructed of cold rolled steel and finished with a soft white epoxy powder-coated finish, and subjected to a 1500-hour salt spray test in accordance with ASTM-B117.

## HIGH PERFORMANCE HORIZONTAL FLUSH BOTTOM SUPPLY & RETURN / HH-F

The Horizontal Flush (HH-F) is a recessed fan coil designed for flush ceiling applications. The telescoping frame and hinged access panel allow it to fit any type of ceiling. The access panel comes in the same attractive, durable powder coated as the Horizontal Deluxe. Unit comes standard with bottom return front supply.

## HIGH PERFORMANCE HORIZONTAL DELUXE WITH BOTTOM SUPPLY & RETURN / HH-E

The High Performance Horizontal Deluxe Bottom Supply & Return (HH-E) is a high static (up to .50 ESP) recessed fan coil designed for flush ceiling applications. The HH-E comes with a coil, blower/motor assembly with quick connect plug and a galvanized steel, powder coated epoxy drain pan covered with 1/8" thick insulation. Deluxe cabinets are constructed of cold rolled steel and finished with 385° baked on tough, soft-white epoxy powder coated finish.

## HIGH PERFORMANCE HORIZONTAL BOTTOM RETURN AIR PLENUM / HH-Q

The High Performance Horizontal Bottom Return Air Plenum (HH-Q) is a high static (up to .50 ESP) fan coil that comes with a coil, blower/motor assembly with quick connect plug and a galvanized steel, powder coated epoxy drain pan covered with 1/8" thick insulation. The galvanized steel plenum is insulated with 1/2" thick, over three pound density, neoprene coated fiberglass. The plenum conceals the fan and motor assembly that is easily accessed for service by removing the back panel. This unit is easily mounted above ceilings, in closets, and in hallways.

## HIGH PERFORMANCE HORIZONTAL CASED FLUSH / CH-F

The Cased Flush Horizontal (CH-F) is a horizontally ducted fan coil that aligns flush with the ceiling. Ideal for horizontal applications in apartments, condominiums and motels requiring either a drop ceiling or soffit installation. The Cased Flush Horizontal has a swing down access panel for fast and easy filter removal and routine maintenance. Bottom return-air is standard, rear ducted is an option.
